TALEX Leaflet

TALEX(engine STARK QLE

Perfectly matched LED system solution

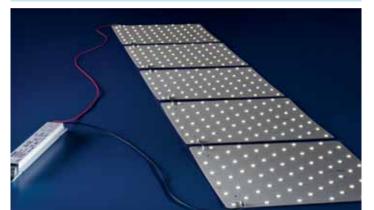

TALEX(engine STARK QLE: The square team player – efficient, flexible, square

TALEX(engine STARK QLE

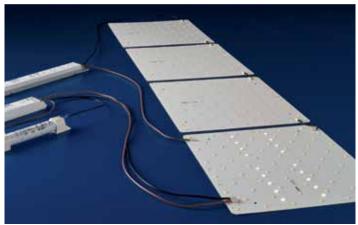

TALEX(engine STARK QLE EM

CLASSIC

The square design with an edge length of 270 mm is an ideal basis for equipping linear fixtures or square fixtures. TALEX/engine STARK QLE can be combined not only with products of the same design but also with its linear TALEX/engine STARK LLE sister products. It is therefore very easy to implement new design concepts. Up to six LED modules can be operated with just one converter.

For emergency lighting mode there are special QLE emergency lighting modules on which separate emergency lighting LEDs are fitted and which can be easily combined with the modules for standard operation. The separate emergency lighting modules and the conventional LED modules in combination with EM converterLED are suitable for decentral operation.

With excellent colour rendering and a choice of warm white or neutral white colour temperatures, this LED system solution is a high-quality replacement for T5, T8 and TCL fluorescent lamps, providing pleasant feel-good light.

At a glance:

TALEX(engine STARK QLE product series

- LED system solution with outstanding system efficiency of up to 100 lm/W, consisting of a square LED module and converter
- Close colour tolerance: MacAdam 3
- Integrated emergency lighting function in combination with TALEX/module STARK QLE EM
- Light output of 1,250 lumen per LED module (hot lumen measurement at 65 °C for technical specification under real conditions)
- __ High colour rendering index (CRI >80)
- __ Colour temperatures of 3,000 K, 4,000 K and 5,000 K
- Option of combining multiple products, also with TALEX(engine STARK LLE
- Emergency lighting compatible converter in dimmable and non-dimmable versions
- Long lamp life of up to 50,000 hours

Typical applications

For indoor applications TALEX(engine STARK QLE is perfect in various fixture types such as linear and square designs. TALEX(engine STARK QLE can be used wherever conventional fluorescent lamps are currently being used. Typical applications:

- Offices and schools
- __ Industry and technology

Components

The TALEX/engine STARK QLE system comprises the following components:

- __ TALEX/module STARK QLE or TALEX/module STARK QLE EM in the CLASSIC version.
 - The properties of the module are given on the following pages.
- TALEX/converter: There are suitable emergency lighting compatible* converters in dimmable and non-dimmable versions available for operating the module.
- _ EM powerLED 1-4W*: For decentralised emergency lighting operation of the module
- EM converterLED*: For decentral emergency lighting operation without special emergency lighting module

Interfaces

- _ DALI: Integrated DALI functionality enables the brightness to be controlled via a digital control signal.
- _ switchDIM: The integrated switchDIM function allows a standard momentary-action switch to be connected directly for dimming purposes.
- _ DSI: Integrated DSI functionality enables the brightness to be controlled via a digital control signal.
- _ corridorFUNCTION: The integrated corridorFUNCTION enables the brightness to be automatically controlled via motion sensors.

^{*}Technical details for this product can be found in our catalogue, in the brochure for emergency lighting units or on the data sheets (available to download from www.tridonic.com).

TALEX(engine STARK QLE

The TALEX/engine STARK QLE system is available in the following versions:

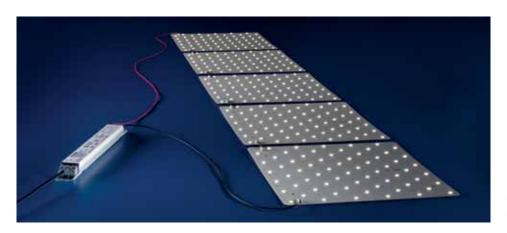

| Properties/functions | TALEX(engine STARK QLE |
|---|---|
| Colour temperature | 3,000 K or 4,000 K |
| Luminous flux | 1,190 lm (at 3,000 K) 1,250 lm (at 4,000 K) 1,300 lm (at 5,000 K) |
| Colour rendering/colour tolerance | CRI > 80 / MacAdam 3 SDCM |
| System efficiency | 93 lm/W (at 3,000 K) 97 lm/W (at 4,000 K) 100 lm/W (at 5,000 K) |
| Emergency lighting function | In combination with TALEX/module QLE EM and EM powerLED 1-4W |
| DALI | Device Type 6 for converters with the dimming function |
| switchDIM | For converters with the dimming function |
| Typical supply voltage per module | 33.7 V |
| Ambient temperature t _a | Up to +50 °C |
| Max. surface temperature for TALEX/module STARK QLE | 65°C |
| Protection class, system solution | Protection class I |
| Protection class of TALEX/module STARK QLE | Protection class I |
| System guarantee | 5 years |

TRIDONIC www.tridonic.com

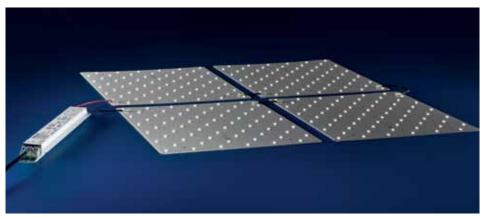

Configuration options with TALEX(engine STARK QLE:

The TALEX(engine QLE LED system solution is typically used in linear and square fixtures. Four to six LED modules can be operated in series with just one converter. The different configuration options, also in combination with the TALEX(engine STARK LLE product series, not only provide a high degree of flexibility, they also open up new fixture designs with the only limitation being the creativity of the designer.

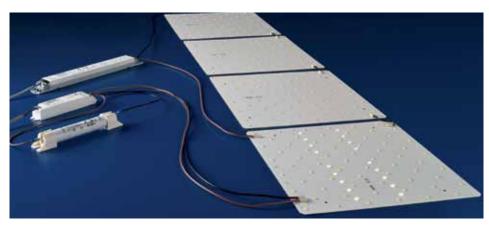

In terms of safety, too, the system is second to none: the standard modules can easily be combined with TALEX/module STARK QLE EM and the appropriate emergency lighting units.

Possible configuration comprising five TALEX(module STARK QLE units and TALEX(converter LCAI 080/0350 I010 one4all.

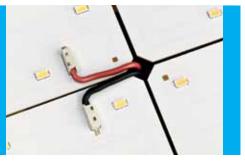

Possible configuration comprising four TALEX(module STARK QLE units and TALEX(converter LCAI 080/0350 I010 one4all.

Possible configuration comprising three TALEX/module STARK QLE units, one TALEX/module STARK QLE EM, one TALEX/converter LCAI 080/0350 I010 one4all, EM powerLED 1-4W emergency lighting units and Nimh battery.

Terminals for quick and easy wiring

Perfectly uniform light, even if several LED modules are used together

Unobtrusive cabling thanks to cable penetration or cable return

TALEX(engine STARK QLE CLASSIC

The TALEX(engine STARK QLE CLASSIC and TALEX(engine STARK QLE EM CLASSIC system is an attractive entry-level solution for general illumination with LEDs. TALEX(converters with or without a dimming function are available depending on the application.

Matching accessories

We offer you system solutions – in other words matching products from a single source. With regard to controllers, Tridonic offers a comprehensive range of DALI-compatible products. All the devices specified here support DALI Device Type 6 and therefore guarantee effective use of TALEX(engine STARK QLE.

Product application matrix

Whether you are looking for wide-area lighting or focused accent lighting, our wide range of TALEXK products will help you create an individual atmosphere and highlight specific areas exactly as you want. Our product portfolio includes individual light points, round, rectangular and strip versions. Specially matched operating equipment such as converters, amplifiers and sequencers round off the components for a perfect system solution: They guarantee ideal operation and maximum efficiency.

Support and advice from a single source

We will help you to create lighting solutions that are unbeatable in terms of economy and functionality, according to our slogan: We devote all our energy to your light.

As an international company, Tridonic is represented worldwide by 30 branch offices and partners in 73 countries. The easiest way to find your regional contact is to check our website at www.tridonic.com.

Just what you need for your LED lighting: Systems, modules, components and more

- __ Impressive lighting thanks to outstanding white light quality
- __ Reliability thanks to permanent colour precision
- __ Flexibility thanks to a wide-ranging product portfolio
- __ Advice and support from the excellent Tridonic-Service team

This way you'll have LED lighting completely under control. led.tridonic.com
